

Country	Kind of telephone number	Fees for incoming calls per minute from ...			Monthly fees	One-time fees	Special conditions
		Fixed line	Mobile network	Public phone boxes			

The phone number services are described in the document „Description of Telecommunication Services“.

The price list for phone services of 42com Telecommunication GmbH comprises standard prices for individual telephone numbers for commercial industrial use. In particular, business models with high volume demand for phone numbers, high number of simultaneous channels or high minute traffic individual solutions can be calculated.

The number of simultaneous voice channels is not limited by the system generally. The availability depends on the given bandwidth or other system boundaries. There may be country-specific conditions / features, which are identified by the pricing table. The settlement of minute charges takes place every second unless otherwise regulated. Monthly fees and one-time fees apply each phone number unless otherwise specified.

Die Rufnummerndienste sind im Dokument „Leistungsbeschreibung für Telekommunikationsdienstleistungen“ beschrieben.

Die Preisliste für Rufnummerndienste der 42com Telecommunication GmbH weist Standardpreise für einzelne Rufnummern für den handelsüblichen betrieblichen Gebrauch aus. Bei besonderen Geschäftsmodellen mit hohen Mengenbedarf an Rufnummern, Anzahl gleichzeitiger Kanäle oder Minutenverkehr können individuelle Lösungen kalkuliert werden.

Die Anzahl der gleichzeitigen Sprachkanäle ist in der Regel systemseitig nicht begrenzt. Die Verfügbarkeit hängt von der gegebenen Bandbreite oder sonstigen Systemgrenzen ab. Es gelten ggf. länderspezifische Bedingungen/Besonderheiten, die nach der Preistabelle ausgewiesen sind. Die Abrechnung von Minutengebühren erfolgt sofern nichts anderes angegeben im Sekundentakt. Monatsgebühren und Einmalige Kosten gelten soweit nichts anderes angegeben je Rufnummer.

Spain	For geographical numbers, the location of the end user (place of residence/business) corresponding to relevant geographic zone is required. This info will be sent to 42com Telecommunication within 24 hours of receiving the request, otherwise the number may be disconnected.	Numbers purchased before 19th of April 2007 must be communicated to 42com Telecommunication in case extra capacity is required. Numbers purchased after this date do not need such notification. Reachability issues have been reported when dialing 518 national numbers from outside Spain. 901 national numbers are not reachable from other countries than Spain. 902 national numbers purchased before June 11, 2011 are not reachable from other countries than Spain. Number porting limited to Madrid. Expansion planned in 2011.	- - x
Sweden	For geographical numbers, the location of the end user (place of residence/business) corresponding to relevant geographic zone is required. This info will be sent to 42com Telecommunication within 24 hours of receiving the request, otherwise the number may be disconnected.	800 are reachable from fix, mobile and pay-phones. 800 are not reachable from other countries than Sweden. Turkey	For geographical numbers, a local address is required in the city corresponding to the geographical zone of requested number. In addition, a proof of identification needs to be uploaded (a copy of the ID card or passport for residential end-users, a copy of the ID or passport of its legal representative for enterprise customers). Only 811 numbers can be used with calling cards applications. For National numbers (prefix 850) and toll free numbers (prefix 811) from Turkey, a global address and proof of identification is still required. The proof of identification needs to be uploaded (a copy of the ID card or passport for residential end-users, a copy of the ID or passport of its legal representative for enterprise customers).	Number portability is not available. 800 with prefix 811 numbers are only reachable from Turk Telecom.	-	-	
United Kingdom	No restriction reported.	SMS is reachable from the UK only. 800 are reachable from fix phones, mobiles and payphones. 800 are reachable from abroad. Calling a 800 from a UK mobile phone is not free of charge. Fax is supported with a temporary service restriction from operator T-Mobile.	x	x	x
United States	No restriction reported.	SMS is supported except in ARROCHAR, KETTERING, LONDON and MANCHESTER. Number porting limited to certain operators. 800 are reachable from the US (mainland only). 800 are reachable from fix, mobile and payphones. US numbers are subject to "use it or lose it" principle: unused numbers may be reclaimed by 42com Telecommunication upon a 5 days' notice.	x	x	x
		SMS is supported, however its use is restricted to person-to-person communication. Reachability issues from Telkomsel (Indonesia) and Telcel (Mexico) have been reported.
